SENIOR LIVING

A Boutique Memory Care Residence

Sundara is a unique memory care community designed and priced for real-world families who appreciate what's important. Like the difference between care and caring, and spending time with our residents instead of simply managing their transition.

At Sundara, **we get it**, and promise that you won't find better care or value in Central Texas

See what a difference we can make. Ask about our free respite stays – and take a few days on us.
